Get this guitar and play your favorite songs. From day one.

Minimalistic to its core and one of our favorite models here at Loog. The Loog I is fun, cute and small, but it's not a toy: it's a real guitar, made out of real wood, that allows you to play chords and any song.

All Loog Guitars come unassembled, as we believe that building your own guitar is an experience that helps you bond with the instrument in a deeper level. It is also a bonding experience between parents and their children, who can build their Loog together and share their love of music.
